# MOTORCARS

---

*We are less than 12 months away from completely changing the way automotive dealerships are run. We will accomplish this by embracing never before seen structures (Solar panels) and technology (service assembly line).*

*During this time we have had to move our inventory to free up space for the construction. We would like to move part of our used inventory to 3077 Mayfield road.*

## 1. 2888 MAYFIELD ROAD (BUILDING NEXT TO CARWASH)

---

- Motorcars Mobility- March 2015 move in date
- Relocate current parrot sign to the front of Pontiac. It was originally there & the base is still functional. Also, our old first choice sign is still usable behind the bird decal. The spot where this sign we would like to replace with a digital sign (similar size).

## 2. 3077 MAYFIELD ROAD (OLD PONTIAC)

---

- Used cars located during construction: from January through September 2015
- Motorcars Mobility until 2888 Mayfield road completed- from January through March 2015
- Relocate current parrot sign at carwash to the front of Pontiac at the corner of Mayfield and Monticello

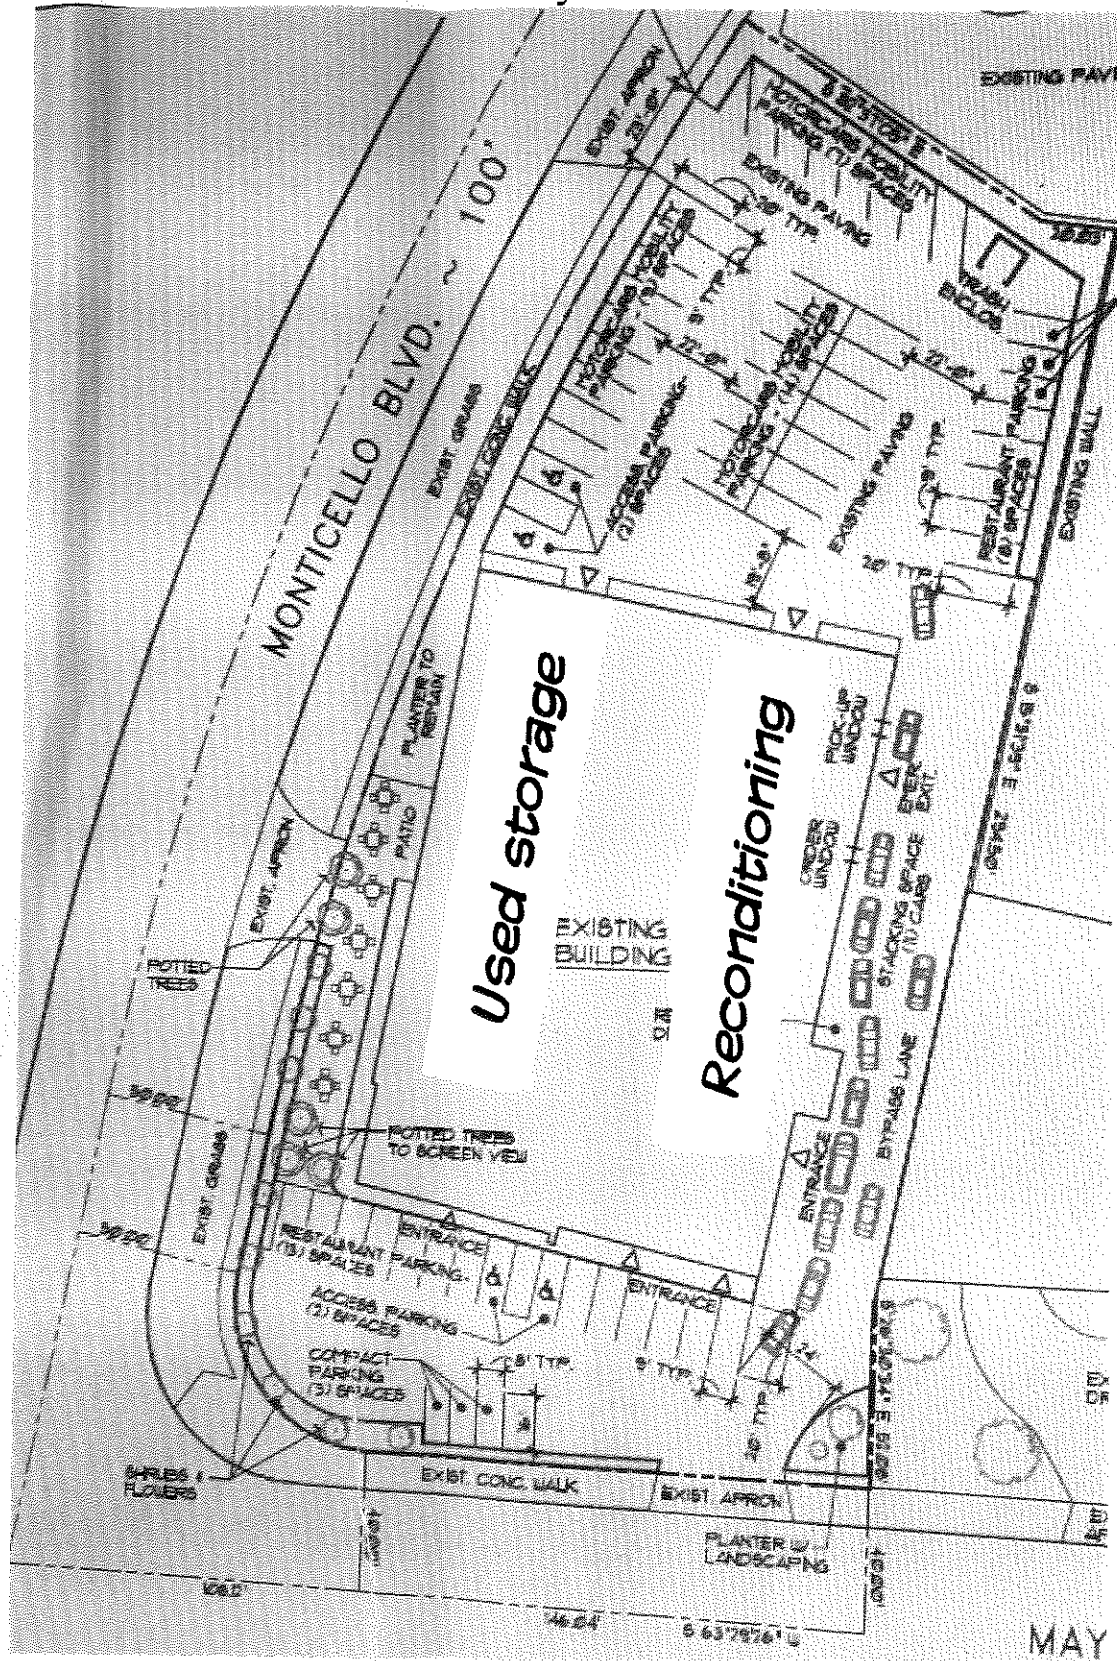

### 3. 2953 MAYFIELD ROAD (HONDA)

---

- Solar panel installation- Completed in April/May 2015
- Assembly line & Platinum lounge- Completed in May/ June 2015
- Interior modification & enhancements: Completed in August/ September 2015
- Install sign bellow flag poles giving update on our solar panel savings/ decrease footprint

3077 Mayfield road
