Chicken Coop Proposal

Project Description Chicken Coop at 3484 Blanche Ave. - Mike Reilly

We are interested in raising four (4) egg-laying hens in our backyard next to the garage. They will provide us with fresh organic eggs. The chicken coop will be made and installed according to the Cleveland Hts. permitting guidelines. In the winter season the coop will be heated by a lamp source. The chicken coop and run will be 4' X 14' long. The hens will have lots of room to walk and run around.
