

Wizbang Theatre

Vision

Wizbang Theatre

The theatre will be a venue and home to the award winning variety shows that we have been producing for the last seven years. We will produce multiple weekend runs of our shows, themed and sometimes holiday specific, for half the year, and open our stage for traveling acts that will be curated by ourselves. Traveling acts will be circus theatre groups, marionette theatre, performance art, and physical theatre. You can expect in our 65 seat theatre to experience all of the circus arts, acrobats, juggling, mask theatre, creative clowning to Variety acts like comedy, music, and magic.

Wizbang is also producing a Saturday morning kids show throughout the year that includes classic cartoons, wacky characters, puppets and games.

Projected Wizbang shows will have runs in the late winter to spring, and then fall through the holidays at the year's end.

For evening shows we will sell select beer, wine, and soft drinks as a libation to our patrons.

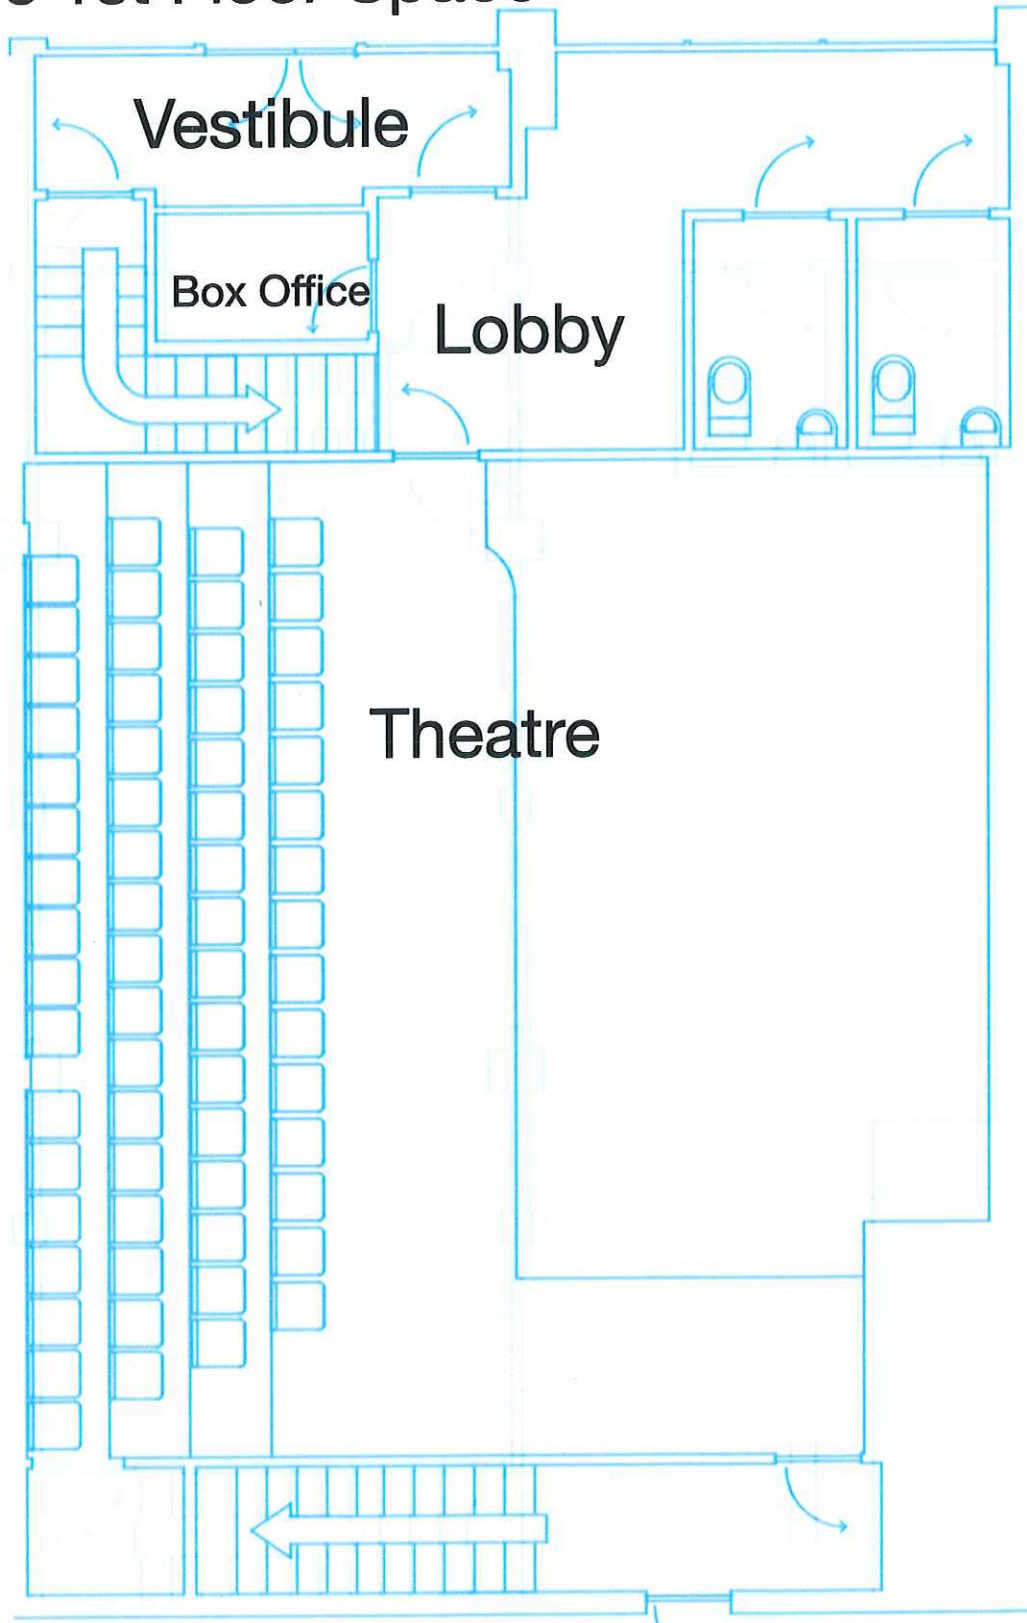

Wizbang Circus School

The facility will be a home for learning some of what you see on our stage and more. Working closely with our star performers, and other experts in circus and variety arts, Wizbang Circus School will offer classes to kids ages 4-17 in the arts of juggling, balance, clowning, stage craft, improv, prop manipulation, dance, circus style hula hoop, partner acrobatics and dance.

These 8 to 12 week courses lead to a showcase for the parents and community to enjoy what the kids have accomplished. This will also lead to our "Social circus". Our after school program for kids to come by and try juggling or learn a "trick of the day" with students and a qualified instructor. Our also inclusive summer camps are intensives that will lead to a free circus show for the Cleveland Heights Community that will be led our day campers and yearly students.

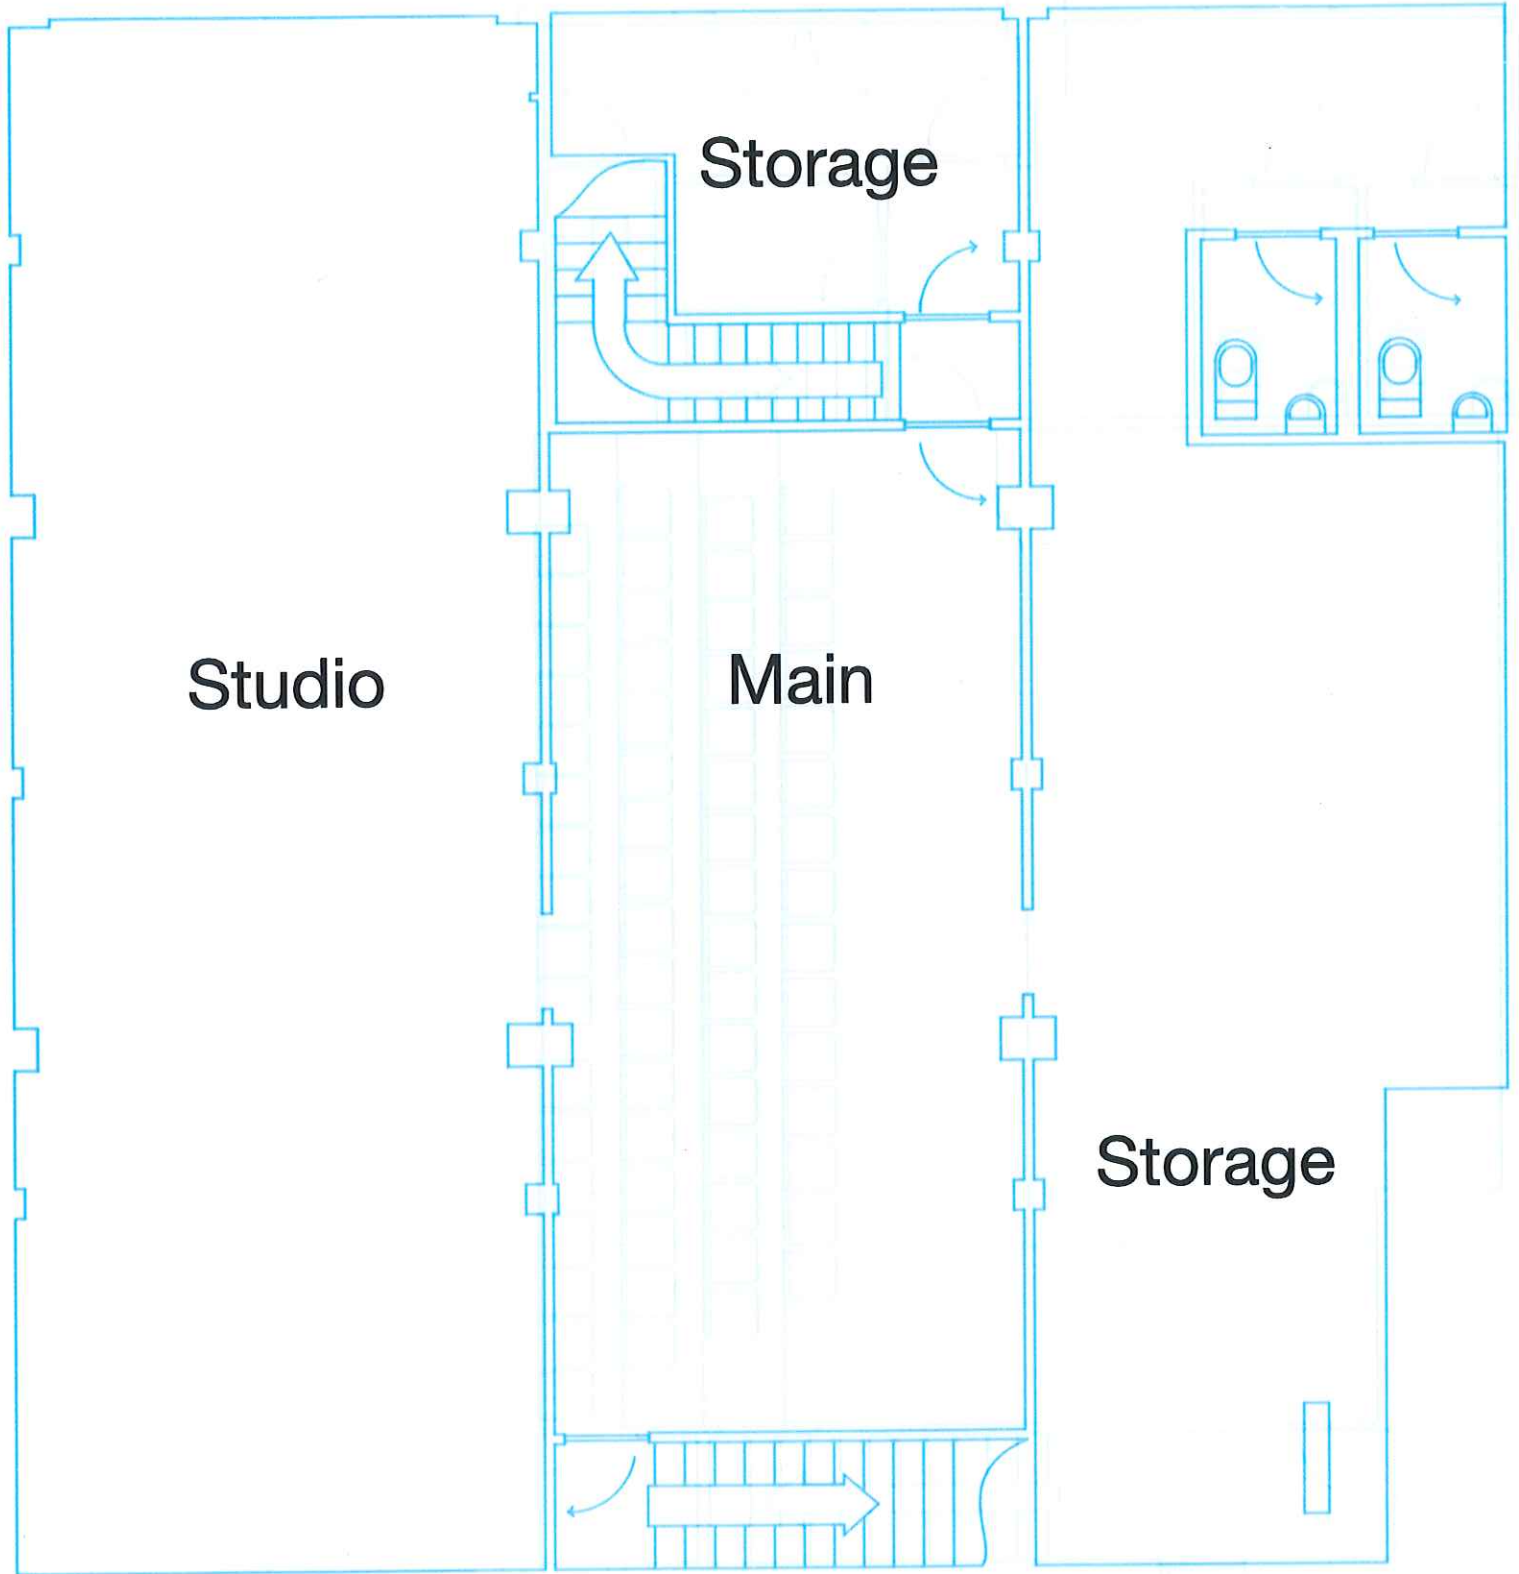

Adult classes will become available by Fall 2020. Short courses and special workshops will also be offered throughout the year by traveling performers that are on stage with Wizbang or as part of their own project. We collaborate with aerialists, clowns and
